Hi,
When some of you make to the CalEPA building, let me know. I'm in the snack bar area having a coffee and reading. I had a break between meetings.

John and Daniel,
Is there going to be a call-in number for this meeting? I cannot make it in person. Thanks!

Subject: Agency/NGO's San Joaquin River Biological Objectives

When: Wednesday, December 18, 2013 2:00 PM-4:00 PM (UTC-08:00) Pacific Time (US & Canada).

Where: CalEPA Rm TBD

We'll discuss the NGOs/Agencies' working draft of SMART Objectives for the SJR. These are the objectives that Jon has been working on, with lots of help from all of our agencies, and use the SJTSP Science Team's work on the Stanislaus Biological SMART Objectives as the main basis. At Wednesday's (Dec. 11) Science Team's meeting, it seems that we have a pretty good consensus that these SMART Objectives are a great basis for moving forward. We will also discuss the work we are all helping with to set a similar set of Objectives for the Tuolumne and Merced, with some ideas for system-wide objectives.
